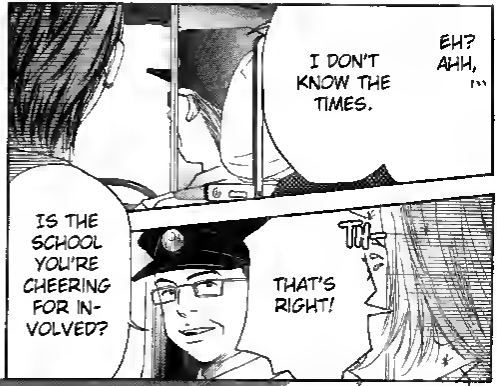
1/4 Space No.2

I've been wanting to sort my old video cassettes. But in the end, I probably have to get rid of them. I've switched from cassettes to CDs and MDs, and the player is now DVDs or HDDs. I still don't know what to do with all the LPs in my house. I've been converting them to DVDs but there are just too many. I had no idea DVDs would become such popular technology.



Yeah, after I got the 4ka tai camera my normal camera was left unused.
And now I've stopped using the camera because I have it on my phone.

I'm sure something new will come out in a few years too.

what a wasteful era for a low-tech person like me.
